

About Me

Professional with 5+ years of experience in different roles across the supply chain. I am a highly curious, adaptable and goal-driven individual who is very passionate about data analysis, and currently seeking a new challenge.

Work Experience

Capacity Manager, Steelcase — June 2022 - April 2023

- Balance demand & supply for Steelcase Reynosa's production lines (demand analysis, capacity balancing, determining priorities) in tandem with the plant's supply chain teams.
- Perform analysis on products' performances using SAP's reporting capabilities in tandem with VBA, Power Pivot and Excel as my main tools. Familiar with Tableau dashboards as it is a second source of consultation.

Scheduling Coordinator, Steelcase — June 2020 - June 2022

- Monitor and process Sales Orders for dealers and direct customers.
- Create, monitor and automate KPIs in my area (turnaround time, percentage of orders' approvals and rejections) using Excel and VBA, while collaborating with other areas within Operations to help identify areas of opportunity and aid with action plans for improvement, using data to drive improvement opportunities.

Supplier Development Specialist, Schneider Electric — Apr 2019 - June 2020

- Improvement of strategic supplier's KPIs (on-time delivery & defects) in North America.
- Search and evaluate potential suppliers that fit the region's business strategy and support strategic projects (RFQs, cost analysis, analyzing supplier's capacity, supply chain & quality audit support).

Upstream Supply Chain Analyst, Schneider Electric — Oct 2018 - Apr 2019

- Deployment & follow-up of digitization projects with suppliers within North America, such as ASN (Advanced Shipping Notifications), real-time order acknowledgements, forecast review & confirmations.
-

Procurement Buyer, Schneider Electric - Jan 2017 - Oct 2018

- Conflict resolution between internal (business unit) and external (suppliers) stakeholders. Released a long-standing debt (8+ years) of \$800K with one of Schneider's long-time suppliers.
- Material planning, forecast analysis, purchase order placement & follow-up with suppliers to meet material delivery as well as daily monitoring of inventory for an assigned Business Unit.

Education

Bachelor in International Business - Universidad Autónoma de Nuevo Leon - Graduated Dec 2016

Google Data Analytics Certificate - Earned February 2023

Microsoft Excel, Power Pivot & DAX - Earned September 2021

Skills

ERP (SAP MM, SAP MDG); Data Analysis (Power BI, Tableau, Power Pivot / Power Query, DAX, SQL, RStudio); Programming (VBA, Python)
